

CONTROL PANEL PARTS

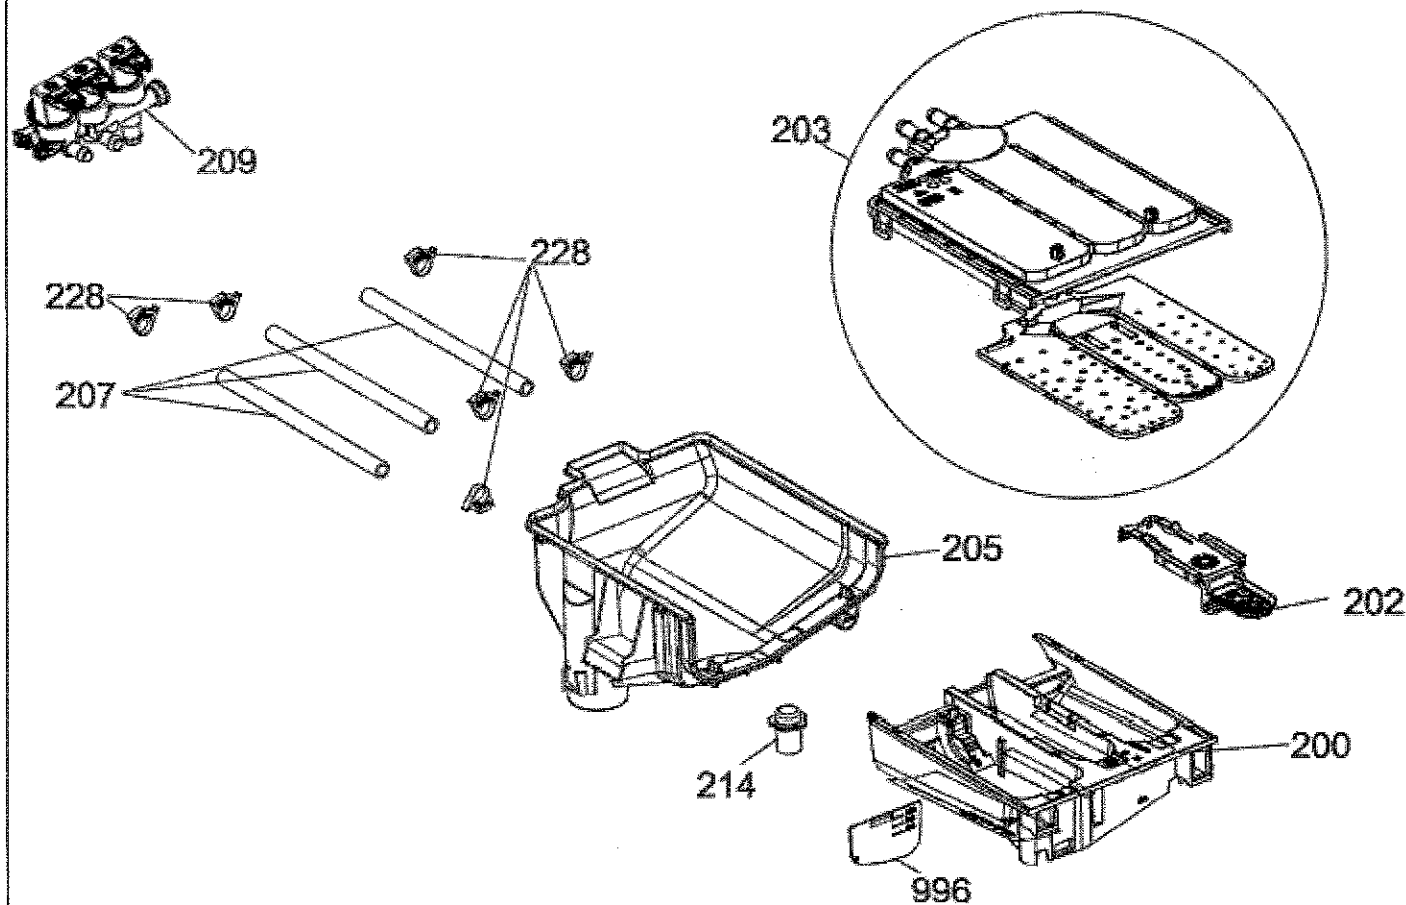

FRONT PANEL PARTS

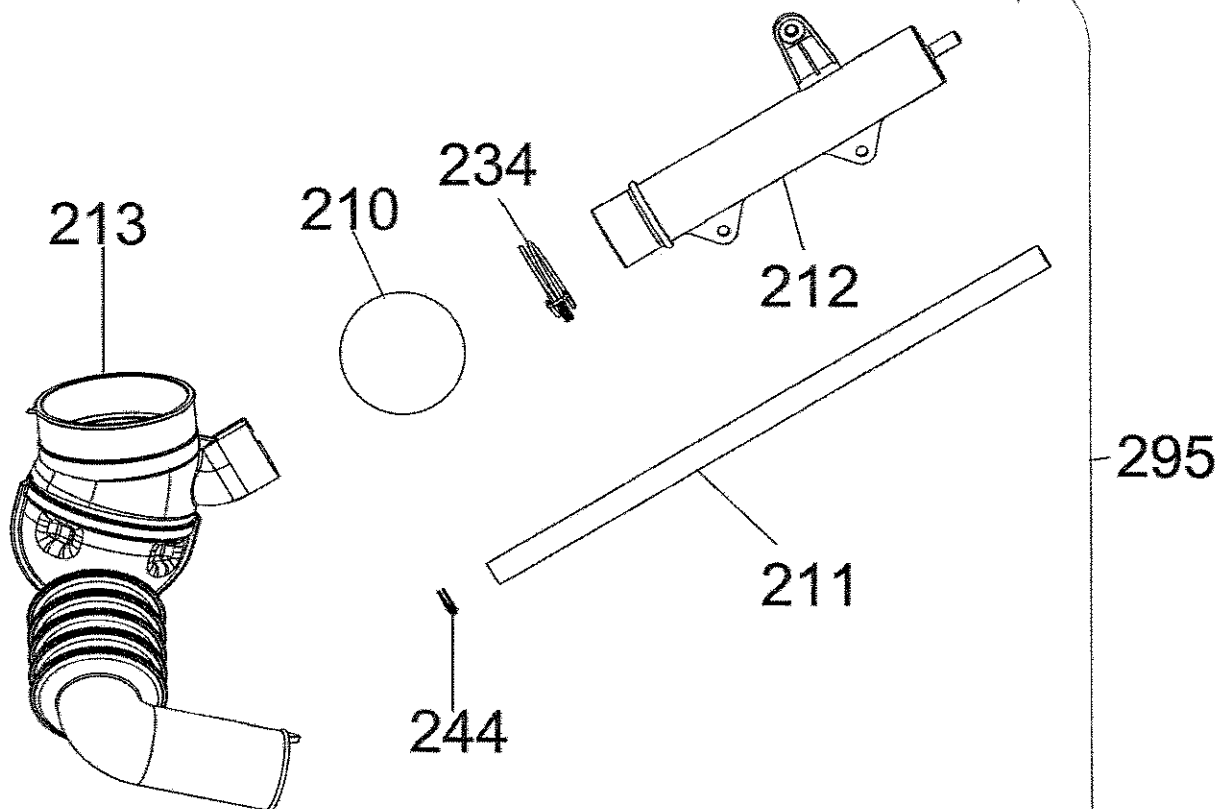

WASHING GROUP PARTS

DETERGENT DRAWER GROUP

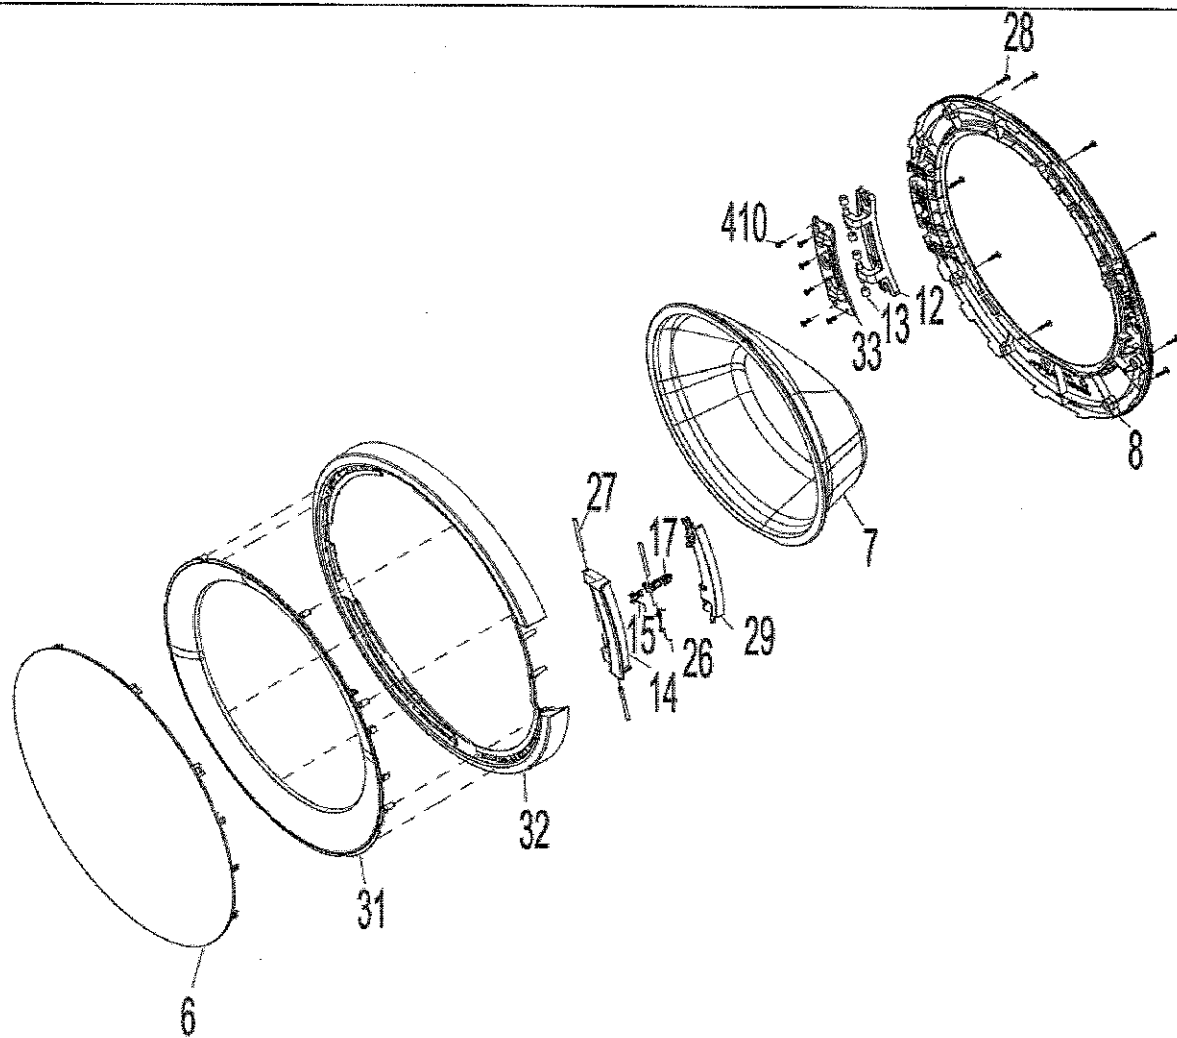

PRESSURE SWITCH HOSE GROUP

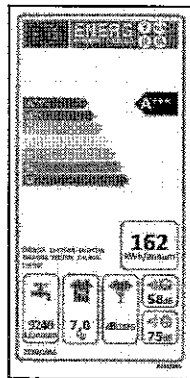

This diagram shows an exploded perspective view of a washing machine door assembly. The main components include:

- Door Panel (231):** The outer panel of the door, featuring vertical ribs.
- Inner Panel (235):** The inner panel of the door, also with vertical ribs.
- Door Frame (239):** The frame that supports the door panels.
- Door Hinge (219):** The hinge mechanism that allows the door to swing open.
- Door Lock (225):** The lock mechanism that secures the door during the wash cycle.
- Door Seal (222):** The seal that prevents water from leaking out of the door.
- Door Gasket (220):** The gasket that seals the door against the tub.
- Door Latch (221):** The latch mechanism that engages the door lock.
- Door Handle (238):** The handle that allows the user to open the door.
- Door Switch (240):** The switch that detects when the door is open.
- Door Motor (241):** The motor that drives the door open.
- Door Cable (242):** The cable that connects the door motor to the door switch.
- Door Cable (243):** The cable that connects the door motor to the door latch.
- Door Cable (244):** The cable that connects the door motor to the door seal.
- Door Cable (245):** The cable that connects the door motor to the door gasket.
- Door Cable (246):** The cable that connects the door motor to the door latch.
- Door Cable (247):** The cable that connects the door motor to the door seal.
- Door Cable (248):** The cable that connects the door motor to the door gasket.
- Door Cable (249):** The cable that connects the door motor to the door latch.
- Door Cable (250):** The cable that connects the door motor to the door seal.
- Door Cable (251):** The cable that connects the door motor to the door gasket.
- Door Cable (252):** The cable that connects the door motor to the door latch.
- Door Cable (253):** The cable that connects the door motor to the door seal.
- Door Cable (254):** The cable that connects the door motor to the door gasket.
- Door Cable (255):** The cable that connects the door motor to the door latch.
- Door Cable (256):** The cable that connects the door motor to the door seal.
- Door Cable (257):** The cable that connects the door motor to the door gasket.
- Door Cable (258):** The cable that connects the door motor to the door latch.
- Door Cable (259):** The cable that connects the door motor to the door seal.
- Door Cable (260):** The cable that connects the door motor to the door gasket.
- Door Cable (261):** The cable that connects the door motor to the door latch.
- Door Cable (262):** The cable that connects the door motor to the door seal.
- Door Cable (263):** The cable that connects the door motor to the door gasket.
- Door Cable (264):** The cable that connects the door motor to the door latch.
- Door Cable (265):** The cable that connects the door motor to the door seal.
- Door Cable (266):** The cable that connects the door motor to the door gasket.
- Door Cable (267):** The cable that connects the door motor to the door latch.
- Door Cable (268):** The cable that connects the door motor to the door seal.
- Door Cable (269):** The cable that connects the door motor to the door gasket.
- Door Cable (270):** The cable that connects the door motor to the door latch.
- Door Cable (271):** The cable that connects the door motor to the door seal.
- Door Cable (272):** The cable that connects the door motor to the door gasket.
- Door Cable (273):** The cable that connects the door motor to the door latch.
- Door Cable (274):** The cable that connects the door motor to the door seal.
- Door Cable (275):** The cable that connects the door motor to the door gasket.
- Door Cable (276):** The cable that connects the door motor to the door latch.
- Door Cable (277):** The cable that connects the door motor to the door seal.
- Door Cable (278):** The cable that connects the door motor to the door gasket.
- Door Cable (279):** The cable that connects the door motor to the door latch.
- Door Cable (280):** The cable that connects the door motor to the door seal.
- Door Cable (281):** The cable that connects the door motor to the door gasket.
- Door Cable (282):** The cable that connects the door motor to the door latch.
- Door Cable (283):** The cable that connects the door motor to the door seal.
- Door Cable (284):** The cable that connects the door motor to the door gasket.
- Door Cable (285):** The cable that connects the door motor to the door latch.
- Door Cable (286):** The cable that connects the door motor to the door seal.
- Door Cable (287):** The cable that connects the door motor to the door gasket.
- Door Cable (288):** The cable that connects the door motor to the door latch.
- Door Cable (289):** The cable that connects the door motor to the door seal.
- Door Cable (290):** The cable that connects the door motor to the door gasket.
- Door Cable (291):** The cable that connects the door motor to the door latch.
- Door Cable (292):** The cable that connects the door motor to the door seal.
- Door Cable (293):** The cable that connects the door motor to the door gasket.
- Door Cable (294):** The cable that connects the door motor to the door latch.
- Door Cable (295):** The cable that connects the door motor to the door seal.
- Door Cable (296):** The cable that connects the door motor to the door gasket.
- Door Cable (297):** The cable that connects the door motor to the door latch.
- Door Cable (298):** The cable that connects the door motor to the door seal.
- Door Cable (299):** The cable that connects the door motor to the door gasket.
- Door Cable (300):** The cable that connects the door motor to the door latch.
